Subject Index to Volume 15

- Aerobic exercise, 75(a), 229
AIDS, 70(a), 229
Alcoholics, 273
Ambulatory blood pressure monitoring, 55(a)
Analgesic withdrawal, 50(a)
Adrenergic receptors, 59(a)
Angle-synchrony biofeedback, 86(a)
Anxiety, 51(a), 72(a), 78(a), 80(a), 161, 273
Anxiety disorders, 81(a)
Applied psychophysiology, 191
Attention deficit disorder, 67(a)
Attention placebo, 51(a)
Autogenic training, 48(a)
- Babyfeedback, 67(a)
Behavior modification, 85(a)
Behavior therapy, 305
Biofeedback
 brainwave biofeedback, 67(a)
 CO₂ biofeedback, 171
 development, 37(a), 83(a)
 economics, 60(a)
 EEG (see EEG Biofeedback) efficacy, 191
 EMG (see EMG Biofeedback) home based, 53(a), 71(a), 77(a)
 in Mexico, 83(a)
Biofeedback training
 for anxiety, 273
 for breathing problems, 81(a)
 for chronic constipation, 85(a)
 for coma patients, 65(a)
 for cystic fibrosis, 55(a)
 for diabetes, 72(a)
 for erythromelalgia, 54(a)
 for headache, 7, 69(a), 85(a)
 for head position, 83(a)
 for HIV infection, 70(a)
 for hyperactivity, 305
 for immunity enhancement, 73(a)
 for lung function, 55(a)
 for pediatric headache, 48(a)
 for premenstrual affective syndrome (PAS), 91(a)
 for premenstrual syndrome (PMS), 92(a)
 for prenatal stimulation, 67(a)
 for temperature stress, 61(a)
Blood pressure (see hypertension)
Breast cancer, 58(a)
Breathing, 55(a), 69(a), 88(a), 161, 171
- Cardiovascular reactivity, 285
Catecholamines, 59(a)
Childhood headache, 1, 69(a), 179
Chronic headache, 15, 27, 50(a)
Clinical psychophysiology, 69(a)
Clothing, 69(a)
Cognitive therapy, 48(a), 51(a)
Cold pressor, 62(a)
Coma, 65(a)
Combat imagery, 81(a)
Constipation, 64(a), 85(a)
Counter conditions, 161
CT scan, 27
Cystic fibrosis, 55(a)
- Deep breathing, 171
Depression in Irritable Bowel Syndrome, 51(a)
Desensitization, 59(a)
Designer Jeans Syndrome, 69(a)
Diabetes mellitus, 7, 72(a)
Diaphragmatic breathing, 161, 171
Digital CAPSCAN EEG, 86(a)
Dominance, 161
- EEG
 for headache, 27, 76(a)
 with deep breathing, 171

- Elderly, 81(a)
- Electrophysiology, 67(a)
- EMG Biofeedback
 - abnormalities, 49(a)
 - ambulatory EMG training 71(a), 74(a)
 - cardiovascular effects, 82(a)
 - for anxiety, 72(a)
 - for breathing problems, 81(a)
 - for chronic constipation, 64(a)
 - for headache, 1, 63(a), 66(a)
 - for hyperactivity, 305
 - for muscle control, 135
- Emotionality, 273
- Emotional distress, 229
- Event-related potential, 99
- Evoked response, 99
- Exhalation, 80(a)
- Family systems psychotherapy, 70(a)
- Feed forward, 135
- Frontal, 135
- Hand temperature (see thermal biofeedback)
- Headache,
 - chronic, 7, 27, 76(a)
 - dietary factors, 7
 - childhood headache, 1, 48(a)
 - medication, 87(a)
 - migraine headache, 48(a), 57(a), 69(a), 179
 - muscle contraction headache, 57(a)
 - pediatric headache, 48(a)
 - tension headache, 1, 7, 48(a), 51(a), 63(a), 66(a)
 - vascular headache, 7, 52(a), 53(a), 77(a)
- Head position training, 83(a)
- Health care, 191
- Heart rate feedback, 285
- Hemiparetic patients, 71(a)
- Hemispheric dominance, 161
- HIV infection, 70(a), 229
- Home-based treatments, 53(a), 71(a), 77(a), 179
- Honduran children, 69(a)
- Hyperactivity, 305
- Hypertension, 55(a), 60(a), 74(a), 145
- Hyperventilation, 171
- Hypnotherapy, 92(a)
- Hypothalamus, 90(a)
- Imagery, 79(a), 81(a), 171, 317
- Inflammatory Bowel Disease, 62(a), 89(a)
- Information systems, 37
- Inhalation volume, 69(a), 79(a), 88(a)
- Instrumentation, 335
- Insulin-dependent diabetes, 7, 72(a)
- Irish stethoscope, 74(a)
- Irritable Bowel Syndrome, 51(a), 53(a), 79(a), 84(a), 88(a)
- Laboratory stress, 121
- Lung function, 55(a)
- Magnitude, 135
- Masseter EMG, 121
- Medication consumption, 87(a)
- Meditation, 161
- Mental imagery, 171
- Mexico, 83(a)
- Migraine headache, 48(a), 57(a), 69(a), 179
- Mitogens, 73(a)
- Muscle contraction headache, 48(a), 57(a)
- Muscle palpation, 63(a)
- Muscular tension levels, 1
- Music, 161, 317
- Myofascial pain, 56(a), 121
- National health care policies, 58(a)
- Natural Killer (NK) cells, 58(a)
- Neurohumoral signals, 59(a)
- Neurological testing, 27, 76(a)
- Neurotransmitters, 243
- Night work, 58(a)
- North Pole, 61(a)
- Olfactory sensitivity, 75(a)
- Operant controlled brain activity, 99
- Otolithic vestibular stimulation, 93(a)
- P300, 99
- Paced respiration, 273
- Pain, 82(a)
- Pain total index (PTI), 1
- Paper speaker, 83(a)
- Paradoxical puborectalis, 64(a)
- Paretic hands, 71(a)
- Pediatric headache, 179
- Performance, 285
- Pericranial muscle, 63(a)
- Periodicals, 37
- Physiologic dysregulation, 66(a)
- Placebo, 51(a)
- Posttraumatic stress disorder (PTSD), 78(a), 81(a)

- Power spectrum, 334
Premenstrual Affective Syndrome (PAS), 91(a)
Premenstrual Syndrome (PMS), 92(a)
Pre-natal stimulation, 67
Progesterone, 91(a)
Progressive muscle relaxation, 51(a), 69(a), 90(a)
Psychiatric diagnosis, 84(a)
Psychometric profiles, 79(a)
Psychoneuroimmunology, 229, 317
Psychophysiology, 49(a), 61(a), 66(a), 69(a), 76(a), 78(a), 81(a), 99, feedback, 61(a), 69(a)
Psychosomatic disorders, 66(a)
Psychosocial stress, 62(a)
Publishing, 37

Rapid eye movement (REM), 93(a)
Rating scales, 305
Rehabilitation, 191
Relaxation tapes, 72(a)
Relaxation training, 7, 48(a), 51(a), 53(a), 58(a), 69(a), 72(a), 74(a), 161, 209
Ritalin, 305

Sedlacek technique, 185(R)
Shift work, 58(a)
Seizure reduction, 91(a)
Sleep, 58(a), 93(a)
Slow diaphragmatic breathing (SDB), 69(a)

Stress, 59(a), 243
 cold pressor, 62(a)
 effects on immune system 74(a)
 laboratory, 121
 management, 72(a), 74(a)
 monitoring, 62(a)
 work-related, 58(a)
Stress-muscle hyperactivity model of pain, 121
Subject variables, 191

T-cells, 73(a)
Temporomandibular symptoms, 56(a), 74(a), 121
Tension, 161
Tension headache, 1, 7, 48(a), 49(a), 51(a)
Thermal biofeedback, 61(a), 68(a), 77(a), 79(a), 145, 179, 209
TMJ, 56(a), 74(a), 121
T-wave vector loop, 62(a)

Vascular abnormalities, 49(a)
Vascular headache, 7, 49(a), 53(a), 77(a)
Vector cardiogram, 62(a)
Video games, 285
Vietnam veterans, 78(a)
Vision, 90(a)
Visualization training, 48(a), 58(a)

Wait list control, 51(a), 89(a)
